Ray Cheung is the General Manager of the Government & Public Solutions Department with NEC Hong Kong Limited. He has been in the industry of information and communication technologies for over 25 years.

During his employment with NEC, Ray has successfully introduced into the market the technology of biometrics, NeoFace – an advanced facial recognition system that provides high security for various business applications. Through his innovative leadership, Ray transforms the company direction from Hardware sales nature to System Integrator capability.

Carrying on with sound recognitions of his achievements in biometrics for the Governments of Hong Kong and Macau, Ray has explored opportunities globally for Automatic Border Control System. By contributing his in-depth knowledge and professional insights of the technology, he continuously realizes society enhancement.

As a volunteer committee for the eHealth Consortium, Ray has devoted professional knowledge and experience to achieve society betterment by realizing a nationwide validation platform for the electronic Health Record , eHR sharing among hospitals, clinics and private healthcare providers.

Ray received his Executive Master of Business Administration from the City University of Hong Kong in year 1999. He is the President of Communications Association of Hong Kong; a Council Member of Internet Professional Association; a Fellow of the Chartered Institute of Marketing; and a Member of the Institute of Engineering & Technology.
